

## Sudden Cardiac Arrest Association

Congress passed a resolution declaring October as Sudden Cardiac Arrest (SCA) Awareness Month. SCA can strike persons of any age, gender, race and even those who seem in good health. To help commemorate this first-ever SCA Awareness initiative, the Sudden Cardiac Arrest Association invites you to take two minutes to watch our new public service announcement (PSA) with Tom Brokaw of NBC News, view a normal and abnormal heartbeat and download these fact sheets to increase your knowledge about SCA and learn how you can help save a life.

POWER AND PASSION... SAVING LIVES

Watch our New PSA with  
Tom Brokaw
